

Aquaglide

Airport™ Classic

Description 4 person towable lounge or aquapark base.

Specifications 90"L x 90"W x 10"H

A brand new version of our extraordinarily popular Airport™ platform! The Airport Classic balances performance, style and value in a remarkably versatile swim platform. Ideal as a lounge, swim raft or launch pad for any watersports, the Airport can also be towed with up to four people for a little extra excitement. Designed primarily for residential use, the classic styling fits comfortably in any waterfront environment. Made using a heavy duty 26 gauge PVC, 2-chambered bladder covered in 600d polyester for comfort, durability and style. Includes four reinforced

Airport™ Classic Technical Features

Rapid Inflate Valve

This unique valve system offers the best possible combination of high air volume and ease of use.

FullWrap Cover

Offers the security and stability of a heavy duty cover wrapping completely around the inflatable for higher performance.

AquaLink Connectors

Stainless steel system offering a wide range of options for Aquaparks, accessories, or mooring.

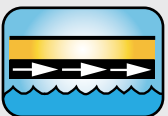

EVA Rash Guard

Soft, forgiving protection against abrasion provided for knees, knuckles and other sensitive areas.

1 Year

Aquaglide towables are the best in the business. We proudly offer a 1 Year warranty against manufacturing defects.

SpeedSkin Base

A specially coated fabric used on the sliding base to enhance speed and reduce friction.
