The Foxtrot™ is a crowd favorite! A challenging balance beam in any track or circuit, this item can also be used for head-to-head competition. Accommodates up to four participants. Connects on two sides using Interloc™ system, 5 pcs. QuickStrap included.

Foxtrot™ Functional Features

Balance

Incorporates a balance feature.

Build balance skills! This balance feature adds endless excitement to your Platinum™ aquapark.

Bounce

Incorporates a bouncing feature.

Regardless of your age, few things capture childlike enthusiasm better than bouncing with wild abandon. Bounce for the sky on this Platinum™ item.

Foxtrot™ Technical Features

RF Weld™

Radio frequency welded seams for high quality and outstanding durability.

'RF' or Radio Frequency Welding is the process used to fuse DuraTex™ material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

Interloc™

Heavy duty stainless fittings and convenient Interloc straps for modular use.

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

3 Year

Limited Warranty against any and all manufacturing defects.

Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. Foxtrot™ includes a 3 Year warranty for recreational use, a 1 year warranty for commercial use.

UV Block™ Materials specially treated for high resistance to the sun's damaging rays.

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.

Duratex™

Commercial grade fabric reinforced PVC material.

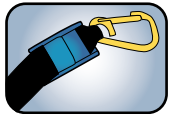

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Foxtrot™ incorporates 1000d fabric fused with layers of 28 oz PVC.
