

Aquaglide

Freefall™ 6

Description Large, commercial grade slide.

Specifications 13'4"L x 6'4"W x 6'H

Suitable for commercial pool or waterfront use, the sporty Freefall™ 6 brings a new type of fun into the mix. Six foot high climbing ladder and an exhilarating zero-entry slide will accommodate up to three participants at a time. Adds a thrill for any age group. Connect Platinum™ accessories at one station using Interloc™ system.

Freefall™ 6 Technical Features

Duratex™

Commercial grade fabric reinforced PVC material.

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Freefall™ 6 incorporates 1000d fabric fused with layers of 28 oz PVC.

HA Weld™

Hot air-welded seams for high quality and outstanding durability.

'HA' or Hot Air Welding is the process used to fuse Duratex™ material seams for years of trouble-free use. HA welding produces clean, strong seams with no unsightly glue marks or splits.

UP Grip™

Incorporates convenient climbing handles.

Convenient climbing handles allow for boarding and/or climbing while staying out of the way for other activities. The Freefall™ 6 incorporates 5 sturdy handles for climbing and stability while on board.

Interloc™

Heavy duty stainless fittings and convenient Interloc straps for modular use.

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

3 Year

Limited Warranty against any and all manufacturing defects.

Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Freefall™ 6 includes a 3 Year warranty for recreational use, a 1 year warranty for commercial

UV Block™ Materials specially treated for high resistance to the sun's damaging rays.

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.
