### Swimstep XL™ Functional Features

#### **Balance**

**Incorporates a balance feature.**

Build balance skills, spar with a friend, or create a challenge course. This balance feature adds endless excitement to your Platinum™ aquapark.

### Swimstep XL™ Technical Features

#### **Duratex™**

**Commercial grade fabric reinforced PVC material.**

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Swimstep XL™ incorporates 500d fabric fused with layers of 28 oz PVC.

#### **RF Weld™**

**Radio frequency welded seams for high quality and outstanding durability.**

'RF' or Radio Frequency Welding is the process used to fuse DuraTex™ material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

#### **Interloc™**

**Heavy duty stainless fittings and convenient Interloc straps for modular use.**

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

#### **3 Year**

**Limited Warranty against any and all manufacturing defects.**

Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Swimstep XL™ includes a 3 Year warranty for recreational use.

#### **UV Block™**

**Materials specially treated for high resistance to the sun's damaging rays.**

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.
